PATCHING IGRO

ASPHALT TOP QUALITY

MOISTURE HARDENING COLD-MIX ASPHALT

PATCHING IGRO is a cold mix that requires water for the hardening process. It then hardens through an exothermic reaction with water and has similar properties to hot mix.

Patching **IGRO**
asphalt top quality

This product is particularly easy to use: just apply and pour water over to harden. The material is easily workable, and it perfectly adheres to old asphalt.

PATCHING IGRO can also be applied in thin layers.

**PATCHING IGRO IS AVAILABLE
IN 25 KG BUCKETS.**
